

Facilities...

Macintosh Lab
Windows Lab
Student/Teacher Network
Laptop Computers
High Speed Internet
Student E-Mail
Personal Network File Storage
Class Specific Student Folders

SBA Desktop Publishing students enjoy creating.

Features...

Sophomore students learn Keyboarding.

Computers as Educational Tools

- **Cross Platform:** Students receive a solid foundation in both the Apple Macintosh and Microsoft Windows platforms. Software employed is cross-compatible.
- **Open Use Policy:** Students are able to use any of our computers at any time as long as one is available.
- **Computer Labs:** Accommodate scheduled classes, research, writing projects, teaching and multimedia tools for virtually all disciplines.
- **Security:** Internet is filtered to prevent students accessing unwanted sites. Password protected student e-mail has administrative oversight.

Finishing Touches

Wireless Technology

- **Technology Plan:** Bring technology to the classroom by access to the Student/Teacher network, including Internet, e-mail and shared folders via wireless technology.
- **Portable Computing Resources:** Sharing of network resources through laptops.
- **Wireless Network Infrastructure:** Cable and Airport Base Station installation for all network functions is complete throughout the school.

- **Emerging Technologies:** SBA embraces new technologies which serve as an integral part of our curriculum to benefit our students' education.
